***Peripheral venous catheter insertion***

| № | List of practical actions | Performance format (perform/say)[1] |
|---|---|---|
| | **Preparation stage of the procedure** | |
| 1. | Review the prescription sheet | say/perform |
| 2. | Greet the patient | say |
| 3. | Introduce myself. Perform patient identification | say |
| 4. | Inform the patient about the upcoming procedure, obtain verbal consent | say |
| 5. | Ask the patient to assume the required position | say |
| 6. | Fully prepare the necessary equipment for the procedure | say/perform |
| 7. | Check the integrity, appearance, and expiration dates of ampoules/vials with medication and medical devices before donning non-sterile gloves | perform |
| 8. | Perform hand hygiene according to regulatory acts | say |
| | **Main stage of the procedure** | |
| 9. | Open the package of cotton balls | perform |
| 10. | Prepare the ampoule/vial with medication (sodium chloride solution 9 mg/mL). Draw 5.0 mL of sodium chloride solution into the syringe | say/perform |
| 11. | Prepare the vials with medication (sodium chloride solution 9 mg/mL, heparin solution). Prepare a 1:100 heparinized solution, draw 3.0 mL of heparinized solution into the syringe | say/perform |
| 12. | Timely place the ampoule necks and ampoules/vials into appropriate containers | say/perform |
| 13. | Write on the vial: "Heparinized solution 1:100, date, time of preparation, signature" | say |
| 14. | Prepare adhesive tape strips or a transparent dressing for PVC fixation | say/perform |
| 15. | Select, inspect, and palpate the PVC insertion site | perform |
| 16. | Perform hand hygiene according to regulatory acts | say |
| 17. | Open the packages of gauze wipes and the PVC | perform |
| 18. | Place a cushion under the patient's arm | perform |
| 19. | Apply a tourniquet 10–12 cm above the intended insertion site. Ask the patient to clench and unclench their fist several times to fill the vein | perform |
| 20. | Treat the insertion site with two cotton balls soaked in antiseptic in one direction | perform |
| 21. | Perform hand hygiene according to regulatory acts. Don non-sterile medical gloves | say/perform |
| 22. | Take the PVC, remove the cap (onto a wipe or into the PVC package), slightly spread the wings on the PVC | perform |
| 23. | Fix the vein by stretching the skin at the venipuncture site with the first finger of my left hand | perform |
| 24. | Puncture the vein, advance the PVC along the vein up to the cannula when blood appears in the flashback chamber | perform |
| 25. | Advance the catheter along the vein while holding the introducer needle steady | perform |
| 26. | Untie the tourniquet with my left hand, ask the patient to unclench their fist | say/perform |
| 27. | Compress the vein with a finger at the presumed catheter tip location | perform |
| 28. | Place a wipe under the main port of the catheter | perform |
| 29. | Remove the introducer needle | perform |
| 30. | Flush the PVC with sodium chloride solution | perform |
| 31. | Close the main port with the cap | perform |
| 32. | Inject heparinized solution through the additional port of the PVC, close the additional port | say/perform |

| | | |
|---|---|---|
| 33. | Treat the skin around the PVC | perform |
| 34. | Secure the PVC with a transparent dressing | say/perform |
| 35. | Write the time and date of PVC insertion on the dressing | say/perform |
| 36. | Cover the PVC with a gauze wipe, apply a bandage. Instruct the patient not to remove the bandage or wet the venipuncture site | say/perform |
| | **Final Stage of the Procedure** | |
| 37. | Correctly disinfect the dressing materials | say/perform |
| 38. | Correctly disinfect the syringes | say/perform |
| 39. | Correctly disinfect the needles | say/perform |
| 40. | Remove gloves with the working surface facing inward, place them into the "Disinfection of dressing materials and PPE" container. Perform hand hygiene according to regulatory acts | say/perform |
| 41. | Place the packages into the container | say/perform |
| 42. | Record the procedure in the medical documentation | say |

*1- Depends on physical capability to perform the action and on the station equipment.*
